Katherine Hawke, the 10-foot sprinter, diving queen, only 15 years old. When she dived to fame recently at the women's Olympic swimming trials at Jones Beach State Park, New York, she had no thought that she would improve on the form of the older girls and women who were gliding through the air. ## LOBBYIST MOB QUITS OTTAWA IN SAD ARRAY

Chateau Laurier Becomes Deserted as Parley Nears End

By GEORGIA HAMILTON  
Canadian Press Staff Writer  
OTTAWA, Aug. 12.—The lobby conference at the Chateau Laurier, which has been in session for a week, gradually lessened its numbers today, and in most cases, the lobbyists are wending their way home.

For there never has been such an imperial conference before. In the past, the lobby conference is a rather a staff affair. A small group of lobbyists, usually a few, are in the room, and the rest of the lobby is in the hall, waiting for the lobbyist to be called in.

## TWO BOYS BUY OWN AIRPLANE

VICTORIA, B. C., Aug. 12.—In order to satisfy their ambition to fly, two local boys, Bob Proctor and Frank Kelly, worked hard for five weeks in a coast ship mill and then bought with their hard-earned savings a plane in which they intend to pass their flying time.

The plane was shipped here from eastern Canada and the boys' fathers have chartered it to a local pilot who will give them lessons in flying.

Since the time they left school the boys have been fascinated with the desire to fly and have worked hard and long with that achievement constantly in mind.

They have had their first test flight and give promise of becoming expert fliers.

This is the first time here that youths have in fact purchased their own plane in which to continue their flying time.

# DRY WEATHER WILL CAUSE REDUCTIONS

Bank of Montreal Crop Report Says Late Grain Benefitted by Rain

EDMONTON, Que., Aug. 12.—Further reductions in the prospective yields of crops over large areas in the south and central portions of the prairie provinces have been caused by a continuation of dry weather, but late crops would still be benefited by rain, says the weekly crop report of the Bank of Montreal.

"In all the northern districts conditions generally are satisfactory. In the southern areas cutting is general, and threshing has commenced. In Quebec weather conditions have been favorable to all crops. Grain is ripening fast and cutting has begun.

**HARVEST DELAYED**  
"In Ontario grain harvesting has been delayed by frequent rains, which, however, have been of benefit to root and other crops.

"In the maritime provinces also early crops have been benefited by rain, and satisfactory yields are generally in prospect.

"Alberta northwestern area: Crops are only average yields have been seriously affected by hot weather. Grain is ripening rapidly but filling lightly. Cattle grain and hay are average.

"Alberta southeastern area: An excessive heat in the past few weeks has greatly affected crops and yields will be reduced.

## QUEBEC PLANS ECLIPSE VIEW

Scientists Will Watch Shadow Travelling

MONTRÉAL, Aug. 12.—Scientists from Canada, Great Britain and the United States will gather in southern Quebec in mid-afternoon of August 21 to watch the moon roll black across the summer sun. From the midst of a densely-populated area, the shadow of the moon will be observed in such comfort as its rarity permits in recording such phenomena.

While the largest group of American scientists will be located in New England—whether the rolling moon-shadows move from the east down from northern Quebec—a number of other scientists will be from England. Several parties will attend from Canadian universities and three groups from Britain.

An eclipse occurs when the moon is between the sun and earth, or partially covers it. The coming eclipse, when the disc of the moon will wholly cover the sun, will in Canada be visible in most of Quebec.

The shadow, thrown by the moon, at a given instant, be about 100 miles across for its large diameter and nearly 54 miles for the smaller. The maximum duration of totality will be 102 seconds and will occur at the center of the shadow, the duration lessening towards the edges. The shadow will travel at a speed of approximately 2,771 miles per hour. From the time the sun will be from the sun till it loses contact with the moon, approximately 2:14 p.m. to 4:30 p.m. eastern standard time.

The source of the shadow across the surface of the earth will be Quebec, the shadow will be from the north, across the Province of Quebec, and through the United States into mid-America, where it will disappear at night.

Advantageous points in Quebec for viewing the eclipse are: Rivière, Drummondville, St. Hyacinthe, and Saguenay, and along the border of Vermont.

## JAPAN ENVOY TESTS FISHING

JASPER PARK LODGE Aug. 12.—After a week's stay here enroute to Montreal from the Orient, Hon. Herbert Muray, Canadian minister to Japan, left for the east commencing his tour of inspection.

Mr. Muray tested the fishing lure in the newly-opened water of Lake Louise lake, following on the heels of many notable anglers.

Among cattle and heads of deer the fall is a season of danger against flies and other insects.

Showing at the Capitol for the last time today is "Make Me a Star," with Joan Blondell, Stuart Erwin and Zasu Pitts.

**DREAMLAND**  
One of the greatest stunt films in aviation. Al Wilson, was secured by Universal an important role of the 12-episode serial, "The Air Mail Mystery," in which James Flavin and Lucie Browne at the Dreamland, each Saturday.

Wilson, a native of Harrisburg, Kentucky, first entered aviation in 1913 with the building of his own plane. In 1919 he established the first passenger line from Los Angeles to San Francisco despite the fact that the trip required the hours and three landings, against a lightning two-hour journey today.

He is the winner of several national air race competitions and has been the serial stunt attraction of innumerable State Fairs and motion pictures.

**EMPIRE**  
One of the most colorful screen dramas of the current season was revealed to local theatregoers yesterday, when Universal's "Night World" opened an engagement of three days at the Empire theatre.

The picture stars Lew Ayres, and presents this popular young man in a characterization of an entirely new type. Mae Clark plays the principal feminine role.

Not the least remarkable feature of this fast-moving screen play is the fact that the entire action of the story is laid within a night club, a gigantic setting which is a marvel of modern architecture.

# BROODS OVER UNHAPPY LOT

DEAR DOROTHY DIX—I am a young woman. My husband is hopelessly insane. The specialists say there is no possibility of him ever being better. He is confined in an institution and I have not seen him for years. The question is—Must I live my life alone? Must I never have any male society because the law says I am a married woman and refuse to divorce me from an insane husband? I have a right to live in a small town in which I am well known and to avoid criticism. I have a right to be as careful that I hardly dare speak to a man, and yet I crave the society and attentions of men and feel that I have a right to them. There is nothing my husband is dead to me. There is nothing that I can do but stay at home and brood over my unhappy lot and I am getting morbid. Do you suggest?

N. R. Z.

Answer: It has always seemed to me that hopeless insanity should almost automatically sever the marriage bond, and that it is a cruel and unjust thing to bind a man and woman for life to a raving lunatic in an asylum.

There is no other tragedy greater than that of a mental breakdown, not only for the poor victim, but for those who must go through their lives with him. There is no other tragedy greater than that of a mental breakdown, not only for the poor victim, but for those who must go through their lives with him. There is no other tragedy greater than that of a mental breakdown, not only for the poor victim, but for those who must go through their lives with him.

But surely, after having gone through this torture, and having done all that it was humanly possible to do to save the reason of their mates, when the fight is over and the battle lost, and when they know that there is no possibility of their mates ever being again anything but a gibbering lunatic, it is not fair to further wreck the life of the husband or wife by binding him or her to what is to all intents and purposes a corpse.

Of course, it may be objected that insanity were cause for divorce, and innocent parties might be clipped with asylums by husbands and wives anxious to rid of them.

That the present law works great harm on many people who may be sane, I have in mind a case with which I have been familiar for many years. A fine and gifted young man married a girl who two years later became hopelessly insane. He spent a fortune in trying to have her cured but without avail, and at last she became dangerous and had to be put in an asylum.

A broken and saddened man, he led a lonely life for years and then finally he fell in love with a splendid young woman, who returned his affection.

But he was bound to the wealth of a woman in an asylum and could not marry the girl. So he loved his too well to marry any other man and so they have lived their dreary, frustrated lives apart, missing the happiness they might have had, depriving the world of the beautiful home and the fine children they might have had because of this cruel and unjust law.

Many others, not so strong and big-hearted as this, live lives driven into immorality, and it is time it was repealed.

# Your Children

By OLIVE ROBERTS BAKER

## POSTURE IS IMPORTANT TO HEALTH

Do you remember as I do the great number of children who come to go around with shoulder braces? When a child was "round shouldered," a general man gives to stooping, he was whisked off to a doctor who usually advised a support. What good these supports were I do not know. I was constantly threatened with one because I would not, could not, stand straight. But in my great relief, it never materialized. I was in constant terror of having to go about in a sling.

When I look about at the children of today, I am perpetually amazed at their straight backs, heads set beautifully on crooked bodies, close up and hips in. Not all children, of course, but enough to cause the posture of the race is improving.

LESS ILLNESS TODAY It may be attributed to several causes. There is less serious illness for one thing. I attribute my own weakness at least partially to an almost mortal case of typhoid fever when I was 6. There is less typhoid now. And so for diphtheria and scarlet fever. It is a little match the epidemics of former years that they are scarcely recognizable as the same disease.

Another reason for the better posture of children is better bone formation resulting from sunlight and outdoor life in babyhood. There calls little of the children that nearly all children used to have before me as I write a Beautyettes

diagram of right and wrong posture. In the wrong one the head is forward, the neck line arched, the spine deeply curved. In the right one the head is straight up, the neck line straight, the spine straight. The legs are slightly flexed. The hips are in a straight line with the neck line. The shoulders are in a straight line with the hips. The feet are in a straight line with the hips.

One of the most frequent beauty questions that come to this column is how to correct round shoulders. I have always said to have such posture, because they tell that those who are aware of the importance of correct posture. Usually the person who has round shoulders also has other postural defects—flat chest, hollow back, protruding abdomen and hyperextended knees.

Often postural defects can be traced to weak feet. A graceful carriage is impossible when one has fallen arches and the habit of leaning out. Many children and young people wear shoes that are too short or too long, too wide or too narrow, or they wear shoes of the wrong shape with heels that are not the right height. Gradually their feet are weakened and deformed so that they cannot perform their proper function of carrying the weight of the body with ease and grace.

Postural defects may be due primarily to a general lack of physical fitness. Maintaining makes the muscles weak that are needed to maintain the heavy body framework. When there is a balance, pull between the muscles on the front of the body and those on the back, the weight of the body can be carried with the least strain. Physical culture really represents an economy.

After one's general health has been up to the following exercises may be taken every day:

Exercise 1. For strengthening shoulders. Stand erect with arms bent in front of the chest at about the level and elbows drawn back. Pull arms forward, drawing head back at the same time.

VACATION LESSONS IN MANNERS

Question—I came to this Northern city from above in the South, charming manners. I was married to a man who was a widower with two daughters and a son. Their ages are 3, 7 and 8. I adore them, but I don't know how to be a Cinderella mother at all. How can I correct their manners without annoying them?

Answer—In the leisurely days of vacation a wide mother gives daily instructions in manners. These need not be sharp corrections of a child's speech or behavior. More interesting to the young mind and much more impressive are the little maxims, "make-believe" instructions.

Death came suddenly to a homing pigeon Thursday when it flew against wires in front of the Canada Permanent Mortgage Corporation on McDougall avenue and fell to the pavement with a broken neck.

## Who Are You?

This surname is derived from two English words, wine and thorp, meaning "wine-village".  
 The English ancestor of the American Winthrop line, early established in New England, was Adam Winthrop, who was living in 1586. The trail blazer to the New World was John Winthrop, "the only son of Adam, grandson of Adam." He was born in Edwardston, in the County of Suffolk, in 1586.

John Winthrop was the first Governor of the famous "Massachusetts Bay Colony in New England." In relating the story of that courageous company of 1000 colonists who set forth from various English ports under the leadership of Winthrop, one historian says: "John Winthrop, a man of gentle breeding, of education, of private means and of the high principles of the best Puritan traditions, a man trained to law, and what was much better, schooled in a firm but moderate temper; over, yet commanding, going out as Governor to superintend the colony."

The coat of arms above displayed is used by John Winthrop descendants.  
 The most beautiful hand ever painted is generally recognized as the right hand of Mona Lisa, done by Leonardo da Vinci.

 For Klim is milk—milk in convenient powder form, from which only the water has been removed. The replacing of that water gives you pure, fresh, full cream milk again whenever you require it. ## SNIPERS AWAIT SECOND STAGE RIFLE CLASSIC

Weather Plays Tricks on Topnotch Marksmen at Ottawa

By JACK HAMILTON  
ASSOCIATED PRESS Staff Writer  
OTTAWA, Aug. 12.—The first stage of the Governor-General's match is over. Canada's shooting classic is halfway through. And 250 marksmen are wondering just what they might have done to avoid lightning and the end of their hopes. But 150 of them are "telling pretty" waiting for the second stage to be fired on Saturday.

Following a day of rain, Thursday's kaleidoscopic weather changes played havoc with some and plagues favored others. The heavy ones got the breaks; the unlucky ones are out of further competition.

Four men tied for first place with 200 points. They are: Capt. D. D. White, Grand Falls, N.B.; Capt. J. H. G. White, Grand Falls, N.B.; Capt. J. H. G. White, Grand Falls, N.B.; and Capt. J. H. G. White, Grand Falls, N.B.

Women's Matches  
Incited in those eliminated are Mrs. J. H. G. White, Grand Falls, N.B.; Mrs. J. H. G. White, Grand Falls, N.B.; Mrs. J. H. G. White, Grand Falls, N.B.; and Mrs. J. H. G. White, Grand Falls, N.B.

Shooting in "clays"  
With so many marksmen, interest in the match was confined to the first stage. The first stage was a 250-yard match. The first stage was a 250-yard match. The first stage was a 250-yard match.

## Basque Finishes

France has won the prize Davis Cup for the first time since 1920. The United States has a 2-1 record in the series. The United States has a 2-1 record in the series. The United States has a 2-1 record in the series.

Twelve thousand spectators saw the victory, apparently the final set, rally masterfully to win over the "Yanks." The one being by a third when Allison lost a 1-2 game, the victory set and was decisive on his own service. Six times the Americans had match point, but six times Basque's flaming forehand brought off shot and saved the match and the Davis Cup for France.
